Experience & Technical Skills

ImageSTEM
ASU School of Arts Media & Engr, Student Worker
September 2020 – Current

- Designing modules to introduce artificial intelligence into grades 6-8 curriculum via computational cameras and the medium of Google Colab
- Implemented tutorials and videos for Digication and the various tools with over 500,000 hits
- Revised the web design for the Help Resources pages with a focus on accessibility

Software Intern
Acme Aerospace, Tempe AZ
August 2019 - Present

- Scripted in Python and Windows batch to automate checking proper documentation, archiving and committing past projects to VisualSVN from Smartbear Collaborator
- Created scripts to log VisualSVN commits into the corresponding JIRA issues

Convolutional Neural Networks
ASU, CSE494
August 2019 - December 2019

- Built the LeNet-5 architecture in Keras, achieving 90% test accuracy using the MNIST and Fashion MNIST datasets
- Reached 75% test accuracy on the CIFAR-10 Dataset with 10 epochs

CTF Challenges
ASU, CSE466
August 2019 - December 2019

- Executed a variety of exploit techniques in a lab setting
- Reverse engineered x86_64 (AMD64) Linux binaries with Ghidra
- Wrote assembly code to exploit Linux systems and exploiting common insecure programming practices
- Testing Shell and Python scripts to attack vulnerabilities with brute force

Abstract Syntax Tree
ASU, CSE340
January 2019 – May 2019

- Developed an Abstract Syntax Tree to recognize a grammar, and parse for syntax and semantic errors
- Designed with scalability and easy modification in mind, using object-oriented design principles such as abstract base classes

Huffman Code
ASU, CSE310
August 2018 – December 2018

- Implemented a Huffman compression algorithm in C++ to generate a tree as well as calculating the compression ratio.
- Tested and benchmarked average compression ratio and runtime.

Proficient in Python, C, C++, Java, Ubuntu Linux **Familiar with x86_64 assembly, cron, SQL**

Education

Arizona State University Tempe, AZ
Bachelor of Science, Computer Science (GPA: 3.63) Expected: May 2021
Minor in Studio Art
Barrett, the Honors College

Volunteering and Community Involvement

Secretary/Race Team Member
ASU Dragon Boat
August 2017 – September 2019

- Competed in San Diego, Tempe and Long Beach paddling competitions (2017-2018)
- Volunteered with the Iron Man organization as part of the security team, and with Boeing to clean and renovate the Desert Sun Child Development Center
